

Adab of *'itikāf*

The day before the last 10 days of Ramaḍān at 'Asr time make niyyat for *'itikāf* on behalf of themselves, their ancestors, and their children asking Support from Prophet ﷺ, Grand Shaykh Abdullah Daghestani (ق), Mawlana Shaykh Nazim al Haqqani (ق), from Shaykh Hisham (ق), and from Awliya. Gift the reward to Prophet , to Ahl al-Bayt, to Awliya, Grand Shaykh, Mawlana Shaykh Nazim and Shaykh Hisham, and then to anyone you wish.

Introduction

'itikāf in the time of the Prophet (s) was the last 10 days, the most important was to separate yourself from your husband or wife. that is the main thing from *'itikāf* is that you dont have a relationship when you are in *'itikāf*. and that is why they used to go to the mosque as there is no other place to do that in presence of Prophet (s). people today how like to do *'itikāf*, usually, can do in their home even, you can be in a separate room from your husband. that is *'itikāf*. you decide to enter into a heavy training that you want to be always in the divine presence, not to be in the dunya.

this is *'itikāf* is a step before khalwah. so it trains us to be able to be in khalwah for 40 days so you want to be in the divine presence that is your goal: It is Allah, swt and his Prophet (s).

so your shaykh will assign for you some *awrād* to do in order that you can achieve some kind of polishing yourself to enable you in the future, if you keep *'itikāf* it enables you to reach a real understanding of khalwah. *'itikāf* is very important because it will put you on that journey.

'akafa in Arabic means 'akafa ala shay is to turn towards that thing and kept it without changing , constantly doing it.

When you say 'aakiftu ākul ath-thamr, It means I turned to the decision of always eating dates. 'Akafa is to do something constantly, non-stop.

So that ten days *'itikāf* is to decide to turn towards my Lord in these ten days and be away from any disturbance or any connection with other than this Divine Presence.

So the sahaba used to stay in the mosque, but if there is something important that they had to go to their houses and do something they would do that. In other words, it is not full-time seclusion.

If they need to go take shower, they go take the shower and come back. Most important is not to have contact with wife or wife with husband, the relationship with the spouse. They can eat anything in *'itikāf*, not restricted. In khalwah you have to eat only one thing – lentils.

The person in *'itikāf* will have to be busy in these last 10 days in excessive worship day and night.

They have to be very knowing how to protect themselves from all negative whispering of Shaytaan in the ears.

First as much as possible, they don't need to talk to anyone. Although they can talk about anything Islamic, it is ok, and they can listen to talks on Islam, ask questions, listen to hadith. But it must be dedicated to non-worldly, non-*dunya*, no need to talk about going to Wal-mart and talking about what toy I will buy my son. All the focus is Allah and His Prophet (s).

So you being the day before by Maghrib, the 24 hours begins at Maghrib for *awliyaullah*. So if you decide to go you go before Maghrib by two hours and make ablution on the *niyyah* of *'itikāf*,

Then you go in and sit there and begin the *awrād* assigned to you the normal *awrād* assigned to everyone is to read one *juz* to 3 a day if they know how to read Quran. If they don't know to read they can read the meaning in English. Then *Dalail al-khayrat* every day one *juz*. If they don't know Arabic, then they can do 100 salawat on Prophet (s) in place of *Dalail al-khayrat*. and if they don't know to read Quran they can do 100 times *Qul hūw allāhu āḥad* and 3 *juz* will be 300 times *Qul hūw allāhu āḥad*.
